Product Description

New Holland B95D TC Backhoe Loader

Industry-leading comfort and visibility

The spacious six-post cab features floor-to-ceiling windows for outstanding visibility, built-in comfort features to reduce operator fatigue, and available pilot controls for added convenience.????

Lower emissions, less fuel

New Holland D? Series loader backhoes comply with the extremely strict Tier 4 Final regulations, dramatically cutting emissions levels. The SCR (Selective Catalytic Reduction) solution lets the engine run at peak performance for maximum power. It’s simple, too – just top off the DEF (Diesel Exhaust Fluid) when refueling.??

Tool Carrier Model

??The B95D TC combines the powerful backhoe of the B95D? with an advanced curved-boom loader with true mechanical self-leveling both up and down— perfect for working with pallet forks. The standard quick coupler makes switching from bucket to forks a breeze.
