Product Description

Rayco 1800AWL Articulated Wheel Loader

Designed to meet the material handling needs of tree services, landscapers, rental companies, municipalities, light construction and agricultural business, the versatile Rayco 1800AWL is available with numerous attachments. The operator is protected by ROPS and FOPS guarding. Able to maneuver in close quarters, the articulated loader design provides a light footprint and minimal turf disruption while making turns. The telescoping boom is standard on the 1800AWL to provide excellent dumping and lifting height.
