Product Description

CMC S41 XL Series Extra Large Lift

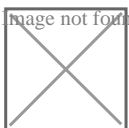

A spider lift equipped with a telescopic boom with six extensions and an articulated extendable telescopic jib which allows one or two operators to reach a height of 41 meters. The basket, with a rapid quick-release system, can rotate 180°. Smooth maneuvering and maximum safety are guaranteed by the Self Control System developed by CMC, which, via a network connection, also allows the system to be diagnosed in real-time and to intervene remotely to solve any problems.

Max. working height **41 m**

Max. outreach **19 m**

Total weight **13460 kg**
